NCE 2-441

Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Engineering Division

DATE: 13 June 1952

FROM : Budget Officer, Communications

SUBJECT: Pending Contract for Manufacture of the RR-2 Receiver, with

25X1

1. Relative to the attached memorandum, the requirements report which OC-0 has just completed indicates that a quantity of 80 RS-1 sets per month will be sufficient to meet all needs. The reduction in RS-1 requirements is a result of the anticipated production flow of RS-6 sets within the next 90 days.

2. In order not to delay the placing of the contract, I have contacted [redacted] and advised him that the 80 per-month-rate will be satisfactory to meet our requirements. 25X1
